If you have questions about PG&E charges, please call PG&E at 1-800-743-5000.

7 SERVICE AGREEMENT ID

A service agreement documents your specific arrangement with PG&E (including billing days, metering information and other factors) to calculate your charges. If you have multiple meters under a single PG&E account, each meter will have a unique Service Agreement ID number.

8 RATE PLAN

This shows the rate plan under which you are receiving electricity service. For residential customers this is commonly E-TOU-C (a time-of-use plan) or E-1 (a tiered plan). You can compare your bill amounts on different plans and choose a new rate plan through PG&E. Customers can change rate plans up to two times per year.

9 GENERATION CREDIT

This is what PG&E would have charged you for generation service. Since SJCE now provides your electricity, it is credited back to your account.

10 POWER CHARGE INDIFFERENCE ADJUSTMENT

PG&E adds a fee to SJCE customer bills called the Power Charge Indifference Adjustment (PCIA). All electric consumers in PG&E territory pay the PCIA to cover PG&E's above-market costs from legacy energy contracts and power plant operations (the PCIA is embedded in the electricity rate for customers receiving generation service from PG&E). SJCE's rate setting always takes the PCIA into account so that rates stay competitive with PG&E's rates.
