

Understanding the sources of your energy

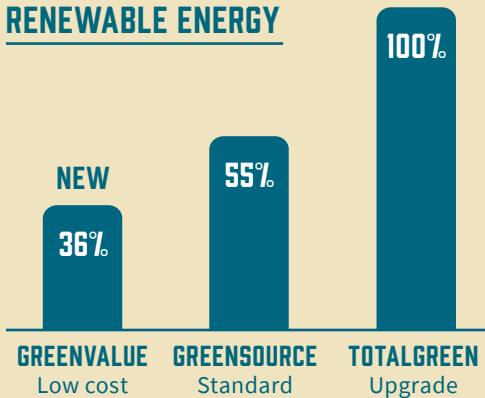

San José Clean Energy is your local, not-for-profit clean electricity provider operated by the City of San José. We source and build clean electricity for you, and PG&E continues to deliver the electricity to you over its poles and wires.

MORE OPTIONS FOR OUR CUSTOMERS

Customer choice is essential to us. That's why we now offer **three clean energy options** at competitive rates. Plus, you get added community benefits like programs, local control, transparency, and accountability.

RENEWABLE ENERGY

INVESTING IN CLEAN ENERGY AND RELIABILITY

Construction photo from Clines Corners, our new wind farm in New Mexico.

Just by being our customer, you're helping improve air quality and fight the climate emergency. Construction on two of our four new renewable energy projects will finish later this year.

This information is required by the California Energy Commission to be mailed to current customers and/or those that received service from SJCE in 2020. The generation data represents 2020 and is provided in the "Annual Report to the California Energy Commission: Power Source Disclosure Program." Percentages may not total 100% due to rounding.
