PG&E Commercial Rate Fees

Please note: The Power Charge Indifference Adjustment (PCIA) and the Franchise Fee Surcharge are always included in SJCE cost comparisons.

Power Charge Indifference Adjustment (PCIA)

The Power Charge Indifference Adjustment (PCIA) is a fee collected by PG&E and assessed to customers who receive their electric generation services from another provider. The PCIA is a CPUC-approved fee assessed by PG&E to cover above market generation costs. SJCE customers only pay for their share of above market costs attributable to generation acquired prior to their enrollment in SJCE. Prior to joining SJCE, customers paid the PCIA within PG&E's bundled rates. PG&E assigns customers a "PCIA Vintage" based on the date the community in where they reside enrolled in alternative service; this date is reset upon reenrollment if a customer opts-out and later re-enrolls in SJCE service. PCIA rates are generally updated by PG&E each January. The PCIA is charged on a per kWh basis, based off net monthly usage and is unaffected by time-of-use. Customers enrolled in PG&E's Medical Baseline Allowance program are currently being phased into the PCIA fee with an additional 25% of the total charge being applied every year until Medical Baseline customers are charged 100% of the PCIA rate.

The PCIA vintage year is assigned by PG&E, depending on the date of enrollment. In an effort to provide the same level of service to all residents at an equal cost, SJCE applies a PCIA adjustment to 2019 and 2020 PCIA vintages so that they are at parity with the 2018 PCIA. The current PCIA for each vintage is displayed below, along with the adjustment that is applied by SJCE.

Franchise Fee Surcharge (FFS)

The Franchise Fee Surcharge is collected by PG&E to pay for the right to use public streets to run gas and electric service through. This fee is imposed by cities and counties for all customers (including PG&E-only customers) but is collected separately from CCA customers. The Franchise Fee Surcharge is charged on a per kWh basis, based off net monthly usage and is unaffected by time-of-use. For the Franchise Fee Surcharge applicable to your rate, please refer to Table 2 Below.

The FFS vintage year is assigned by PG&E depending on the date of enrollment. In an effort to provide the same level of service to all residents at an equal cost, SJCE applies an adjustment to 2019 and 2020 FFS vintages so that they are at parity with the 2018 FFS. The current FFS for each vintage is displayed below, along with the adjustment that is applied by SJCE.

PG&E Electric Rates

San José Clean Energy does not provide a full listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located

Power Charge Indifference Adjustment (PCIA)

The Power Charge Indifference Adjustment (PCIA) is a fee collected by PG&E and assessed to customers who receive their electric generation services from another provider. The PCIA is a CPUC-approved fee assessed by PG&E to cover above market generation costs. SJCE customers only pay for their share of above market costs attributable to generation acquired prior to their enrollment in SJCE. Prior to joining SJCE, customers paid the PCIA within PG&E's bundled rates. PG&E assigns customers a "PCIA Vintage" based on the date the community in where they reside enrolled in alternative service; this date is reset upon reenrollment if a customer opts-out and later re-enrolls in SJCE service. PCIA rates are generally updated by PG&E each January. The PCIA is charged on a per kWh basis, based off net monthly usage and is unaffected by time-of-use. Customers enrolled in PG&E's Medical Baseline Allowance program are currently being phased into the PCIA fee with an additional 25% of the total charge being applied every year until Medical Baseline customers are charged 100% of the PCIA rate.

The PCIA vintage year is assigned by PG&E depending on the date of enrollment. In an effort to provide the same level of service to all residents at an equal cost, SJCE applies a PCIA adjustment to 2019 and 2020 PCIA vintages so that they are at parity with the 2018 PCIA. The current PCIA for each vintage is displayed below, along with the adjustment that is applied by SJCE.

Table 3: Power Charge Indifference Adjustment and SJCE Adjustment by rate class

PG&E PCIA Vintage Year			SJCE Rate(s)	SJCE PCIA Adjustment

0.03405	0.02593	0.0209	Standby	-	0.00812	0.01315

Franchise Fee Surcharge (FFS)

The Franchise Fee Surcharge is collected by PG&E to pay for the right to use public streets to run gas and electric service through. This fee is imposed by cities and counties for all customers (including PG&E-only customers) but is collected separately from CCA customers. The Franchise Fee Surcharge is charged on a per kWh basis, based off net monthly usage and is unaffected by time-of-use. For the Franchise Fee Surcharge applicable to your rate, please refer to Table 2 Below.

The FFS vintage year is assigned by PG&E depending on the date of enrollment. In an effort to provide the same level of service to all residents at an equal cost, SJCE applies an adjustment to 2019 and 2020 FFS vintages so that they are at parity with the 2018 FFS. The current FFS for each vintage is displayed below, along with the adjustment that is applied by SJCE.

PG&E Commercial Rate Fees

Please note: The Power Charge Indifference Adjustment (PCIA) and the Franchise Fee Surcharge are always included in SJCE cost comparisons.

Power Charge Indifference Adjustment (PCIA)

The Power Charge Indifference Adjustment (PCIA) is a fee collected by PG&E and assessed to customers who receive their electric generation services from another provider. The PCIA is a CPUC-approved fee assessed by PG&E to cover above market generation costs. SJCE customers only pay for their share of above market costs attributable to generation acquired prior to their enrollment in SJCE. Prior to joining SJCE, customers paid the PCIA within PG&E's bundled rates. PG&E assigns customers a "PCIA Vintage" based on the date the community in where they reside enrolled in alternative service; this date is reset upon reenrollment if a customer opts-out and later re-enrolls in SJCE service. PCIA rates are generally updated by PG&E each January. The PCIA is charged on a per kWh basis, based off net monthly usage and is unaffected by time-of-use. Customers enrolled in PG&E's Medical Baseline Allowance program are currently being phased into the PCIA fee with an additional 25% of the total charge being applied every year until Medical Baseline customers are charged 100% of the PCIA rate.

The PCIA vintage year is assigned by PG&E, depending on the date of enrollment. In an effort to provide the same level of service to all residents at an equal cost, SJCE applies a PCIA adjustment to 2019 and 2020 PCIA vintages so that they are at parity with the 2018 PCIA. The current PCIA for each vintage is displayed below, along with the adjustment that is applied by SJCE.

Table 1: Power Charge Indifference Adjustment and SJCE Adjustment by rate class

Franchise Fee Surcharge (FFS)

The Franchise Fee Surcharge is collected by PG&E to pay for the right to use public streets to run gas and electric service through. This fee is imposed by cities and counties for all customers (including PG&E-only customers) but is collected separately from CCA customers. The Franchise Fee Surcharge is charged on a per kWh basis, based off net monthly usage and is unaffected by time-of-use. For the Franchise Fee Surcharge applicable to your rate, please refer to Table 2 Below.

The FFS vintage year is assigned by PG&E depending on the date of enrollment. In an effort to provide the same level of service to all residents at an equal cost, SJCE applies an adjustment to 2019 and 2020 FFS vintages so that they are at parity with the 2018 FFS. The current FFS for each vintage is displayed below, along with the adjustment that is applied by SJCE.

PG&E Electric Rates

San José Clean Energy does not provide a full listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located

Power Charge Indifference Adjustment (PCIA)

The Power Charge Indifference Adjustment (PCIA) is a fee collected by PG&E and assessed to customers who receive their electric generation services from another provider. The PCIA is a CPUC-approved fee assessed by PG&E to cover above market generation costs. SJCE customers only pay for their share of above market costs attributable to generation acquired prior to their enrollment in SJCE. Prior to joining SJCE, customers paid the PCIA within PG&E's bundled rates. PG&E assigns customers a "PCIA Vintage" based on the date the community in where they reside enrolled in alternative service; this date is reset upon reenrollment if a customer opts-out and later re-enrolls in SJCE service. PCIA rates are generally updated by PG&E each January. The PCIA is charged on a per kWh basis, based off net monthly usage and is unaffected by time-of-use. Customers enrolled in PG&E's Medical Baseline Allowance program are currently being phased into the PCIA fee with an additional 25% of the total charge being applied every year until Medical Baseline customers are charged 100% of the PCIA rate.

The PCIA vintage year is assigned by PG&E depending on the date of enrollment. In an effort to provide the same level of service to all residents at an equal cost, SJCE applies a PCIA adjustment to 2019 and 2020 PCIA vintages so that they are at parity with the 2018 PCIA. The current PCIA for each vintage is displayed below, along with the adjustment that is applied by SJCE.

Table 3: Power Charge Indifference Adjustment and SJCE Adjustment by rate class

PG&E PCIA Vintage Year			SJCE Rate(s)	SJCE PCIA Adjustment

0.03405	0.02593	0.0209	Standby	-	0.00812	0.01315

Franchise Fee Surcharge (FFS)

The Franchise Fee Surcharge is collected by PG&E to pay for the right to use public streets to run gas and electric service through. This fee is imposed by cities and counties for all customers (including PG&E-only customers) but is collected separately from CCA customers. The Franchise Fee Surcharge is charged on a per kWh basis, based off net monthly usage and is unaffected by time-of-use. For the Franchise Fee Surcharge applicable to your rate, please refer to Table 2 Below.

The FFS vintage year is assigned by PG&E depending on the date of enrollment. In an effort to provide the same level of service to all residents at an equal cost, SJCE applies an adjustment to 2019 and 2020 FFS vintages so that they are at parity with the 2018 FFS. The current FFS for each vintage is displayed below, along with the adjustment that is applied by SJCE.
