

# YOUR ELECTRICITY BILL EXPLAINED

Your electricity bill has always included both electric generation (the process of buying and sourcing energy) and electric delivery (moving electricity through the grid to your home). As a San José Clean Energy (SJCE) customer, you'll continue to receive just one bill from PG&E with generation and delivery charges separated into two line items.

**SJCE is not an extra or duplicate charge.**

## 1 PG&E ELECTRIC DELIVERY CHARGES

PG&E charges you for electric delivery (the process of moving electricity through the grid to your home or business). They also continue to maintain power lines and respond to outages. These charges are unchanged with SJCE service.

## 2 SJCE ELECTRIC GENERATION CHARGES

SJCE replaces PG&E in the process of buying and sourcing your electricity (electric generation). SJCE sources energy from clean resources like solar and wind to reduce greenhouse gas emissions and improve air quality. The clean energy you receive from SJCE is not an extra or duplicate charge. PG&E no longer buys and sources your energy – SJCE does. And since our services offer more renewable power than PG&E, you're helping fight the climate emergency faster simply by being our customer.

## 3 GENERATION CREDIT

The generation credit is what PG&E would have charged you for electric generation (buying and sourcing energy). This credit offsets what SJCE charges you for clean energy, so there are no duplicate or extra charges.

## 4 PG&E ADDED FEES

PG&E adds fees to your bill. The first is called the Power Charge Indifference Adjustment or PCIA. All electric consumers in PG&E territory pay this fee to cover PG&E's above-market costs from legacy energy contracts and power plant operations. The second is called the Franchise Fee Surcharge and is collected by PG&E on behalf of the state to cover costs associated with rights to use public streets to provide electric and gas service. SJCE's rate setting always takes these fees into account so that our rates stay competitive with PG&E.

<b>ENERGY STATEMENT</b> <a href="http://www.pge.com/MyEnergy">www.pge.com/MyEnergy</a>	<b>Details of PG&amp;E Electric Delivery Charges</b>		
	02/01/2021 - 02/28/2021 (28 billing days)
