

# Understanding your energy choices

## Commercial Electric Rate Comparison, B-10S

|                                  | PG&E              | SJCE GreenValue   | SJCE GreenSource  | SJCE TotalGreen   |
|----------------------------------|-------------------|-------------------|-------------------|-------------------|
| Generation Rate (\$/kWh)         | \$0.12814         | \$0.13444         | \$0.14689         | \$0.15189         |
| PG&E Delivery Rate (\$/kWh)      | \$0.13278         | \$0.13278         | \$0.13278         | \$0.13278         |
| PG&E PCIA/FF (\$/kWh)            | \$0.02746         | \$0.02116         | \$0.02116         | \$0.02116         |
| Total Electricity Cost (\$/kWh)  | \$0.28838         | \$0.28838         | \$0.30083         | \$0.30583         |
| <b>Average Monthly Bill (\$)</b> | <b>\$5,604.19</b> | <b>\$5,604.19</b> | <b>\$5,846.13</b> | <b>\$5,943.30</b> |

Monthly usage: 19,433 kWh, monthly demand: 67 kW

### Rates as of March 1, 2022

This table compares electricity costs for an average commercial customer in the SJCE/PG&E service area (City of San José) with an average monthly demand of 67 kilowatts (kW) and an average monthly usage of 19,433 kilowatt-hours (kWh). This is based on a representative 12-month billing history for all customers on B-10S rate schedules for PG&E's and SJCE's published rates as of March 1, 2022.

**Generation Rate** is the cost of creating electricity to power your business. The generation rate varies based on your energy provider and the resources included in your energy provider's generation supply.

**PG&E Delivery Rate** is a charge assessed by PG&E to deliver electricity to your business. The PG&E delivery rate depends on your electricity usage, but is charged equally to both SJCE and PG&E customers.

**PG&E PCIA/FF** The PCIA is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay the above market costs for generation resources that were procured by PG&E on their behalf. "Above market" refers to expenditures for electric generation resources that cannot be fully recovered through sales of these resources at current market prices. PG&E acts as a collection agent for the FF surcharge, which is levied by the California Public Utilities Commission on behalf of cities and counties in PG&E's service territory for all customers. PG&E bundled customers pay the PCIA and FF fees associated with the most currently available vintage year. PG&E charges SJCE customers the PCIA and FF fees based on the year that they transitioned to SJCE service.

\*As reported to the California Energy Commission's Power Source Disclosure Program excluding voluntary unbundled renewable energy credits. PG&E data is subject to an independent audit and verification that will not be completed until October 1, 2022. SJCE's generation data is a forecast for 2021 and may be subject to change. Actual, audited 2021 generation data for both PG&E and SJCE will be reported to the California Energy Commission in 2022. The figures above may not sum up to 100 percent due to rounding.

\*\*San José Clean Energy elected to receive carbon-free resource allocations from PG&E, including nuclear, as San José Clean Energy customers already pay for it through the PG&E Power Charge Indifference Adjustment (PCIA).

\*\*\*Unspecified sources of power refers to electricity that is not traceable to a specific generating facility, such as electricity traded through open market transactions. Unspecified sources of power are typically a mix of all resource types, and may include renewables.

If this comparison does not address your specific rate, please visit PG&E online at [pge.com/cca](https://pge.com/cca) or call 866-743-0335. For information on SJCE's generation rates, please visit [SanJoseCleanEnergy.org](https://SanJoseCleanEnergy.org) or call 833-432-2454.
