*DAYLIGHT SAVING TIME ADJUSTMENT: The time periods shown above will begin and end one hour later for the period between the second Sunday in March and the first Sunday in April, and for the period between the last Sunday in October and the first Sunday in November.

**HOLIDAYS: Holidays, for the purpose of this rate schedule, are New Year's Day, President's Day, Memorial Day, Independence Day, Labor Day, Veterans Day, Thanksgiving Day and Christmas Day. The dates will be those in which the holidays are legally observed.

SJ CARES Residential Rates

SJ Cares

The SJ Cares program was designed for customers enrolled in PG&E's California Alternative Rate for Energy (CARE) or Family Electric Rate Assistance Program (FERA). In addition to PG&E's program discounts, CARE and FERA customers can take advantage of SJCE's GreenSource 60% Renewable electricity mix at discounted prices, currently discounted 10% from GreenSource rates.

SJCE automatically enrolled all CARE/FERA customers in the SJ Cares program on May 17th, 2021 (Note that the changes may take 1-2 billing periods to take effect). Customers who enroll in CARE or FERA after May 17th, 2021 will be automatically enrolled in the SJ Cares program once SJCE receives confirmation of CARE/FERA status (This can take up to two billing periods.) Customers who are no longer eligible for CARE/FERA will be given a 12 week grace period before being automatically unenrolled from SJ Cares (Note that unenrollment can take up to two billing periods to take effect after the 12 week grace period).

San José Clean Energy TotalGreen Residential Rates

TotalGreen

TotalGreen is a simple, cost-effective way for you to do even more to reduce your impact on our planet. Signing up for TotalGreen, our 100% renewable generation service, means your electricity will be generated from carbon-free wind and solar farms. Use the following link to learn more: <https://sanjosecleanenergy.org/totalgreen/>.

Total Green Additional Charge

Additional Charge per kWh: \$ 0.01

PG&E Fees

Please note: The Power Charge Indifference Adjustment (PCIA) and the Franchise Fee Surcharge are always included in SJCE cost comparisons.

Power Charge Indifference Adjustment (PCIA)

The Power Charge Indifference Adjustment (PCIA) is a fee collected by PG&E and assessed to customers who receive their electric generation services from another provider. The PCIA is a CPUC-approved fee assessed by PG&E to cover above market generation costs. SJCE customers only pay for their share of above market costs attributable to generation acquired prior to their enrollment in SJCE. Prior to joining SJCE, customers paid the PCIA within PG&E's bundled rates. PG&E assigns customers a "PCIA Vintage" based on the date the community in where they reside enrolled in alternative service; this date is reset upon reenrollment if a customer opts-out and later re-enrolls in SJCE service. PCIA rates are generally updated by PG&E each January. The PCIA is charged on a per kWh basis, based off net monthly usage and is unaffected by time-of-use. Customers enrolled in PG&E's Medical Baseline Allowance program are currently being phased into the PCIA fee with an additional 25% of the total charge being applied every year until Medical Baseline customers are charged 100% of the PCIA rate.

The PCIA vintage year is assigned by PG&E depending on the date of enrollment. In an effort to provide the same level of service to all residents at an equal cost, SJCE applies a PCIA adjustment to 2019 and 2020 PCIA vintages so that they are at parity with the 2018 PCIA. The current PCIA for each vintage is displayed below, along with the adjustment that is applied by SJCE.

Vintage Year	PCIA (per kWh)
2018	\$ 0.00263
2019	\$ 0.00021
2020	\$ -0.00166

Franchise Fee Surcharge (FFS)

The Franchise Fee Surcharge is collected by PG&E to pay for the right to use public streets to run gas and electric service through. This fee is imposed by cities and counties for all customers (including PG&E-only customers) but is collected separately from CCA customers. The Franchise Fee Surcharge is charged on a per kWh basis, based off net monthly usage and is unaffected by time-of-use.

The FFS vintage year is assigned by PG&E, depending on the date of enrollment. In an effort to provide the same level of service to all residents at an equal cost, SJCE applies an adjustment to 2019 and 2020 FFS vintages so that they are at parity with the 2018 FFS. The current FFS for each vintage is displayed below, along with the adjustment that is applied by SJCE.

Vintage Year	FFS (per kWh)
2018	\$ 0.00111
2019	\$ 0.00113
2020	\$ 0.00114

Other Rate Information

PG&E Electric Rates

San José Clean Energy does not provide a full listing of PG&E's generation or non-generation rates, as those rates are subject to change over the course of the year. The most up-to-date information on these rates can be located within PG&E's tariff sheets, available on their website at: <http://www.pge.com/tariffs/ERS.SHTML#ERS>. For comparison purposes, generation rates are listed under the "Unbundling of Total Rates", which is found after the listing of "Total Rates". All other charges that comprise PG&E's "bundled" charges (such as distribution, transmission, tiering adjustments, and other charges) are assessed equally to San José Clean Energy customers.
