SAN JOSE CLEAN ENERGY
A Program of the City of San José

EcoHome Contractor Install Bonus

Earn bonuses. Build your heat pump business.

Benefits for Contractors

- Earn $1,000 per installation for up to six (6) installations ($6,000 total).
- Build experience participating in the EcoHome Rebate program.
- Gain hands-on experience installing heat pump HVAC and water heaters.
- Expand your services to help grow your business.
- Contractors who support good jobs, safety, and quality can apply to become a High Road Contractor and earn a badge that highlights their business on the EcoHome Network.

How it works:

- Apply to participate and service projects located in the City of San José.*
- Be sure to share the EcoHome Rebate and interest-free payment plan details with customers so they can save too.
- Replace a gas-powered water heater or HVAC system with heat pump water heater or HVAC.
- After completing the installation and permit inspections, submit a claim to receive your bonus.

Apply today!

*Eligible contractors must have completed fewer than 3 projects through the EcoHome Rebate program and hold a valid California contractor license.
